

# Residential ESS project financing options in Norway 2030

What does Agenda 2030 mean for Norway?

Agenda 2030 is a global roadmap for eradicating extreme poverty through sustainable development and for promoting good governance and peaceful societies before 2030. 18 to 20 July Norway's Prime Minister Erna Solberg will present a comprehensive report to the UN on Norway's follow-up of Agenda 2030 and the 17 Sustainable Development Goals (SDGs)

How does Norway support UN capacity building initiatives?

Norway supports UN capacity building initiatives by providing core funding and softly earmarked support to individual organisations, as well as through inter-agency funding and support for the multilateral development banks in this area. International trade is an engine for economic growth.

Is Norway committed to reducing emissions by 2030?

Norway is committed to reducing emissions by at least 40 % by 2030, compared with the 1990 level. Norway is engaged in a dialogue on joint fulfilment of its 2030 commitment together with the EU. Norway regards participatory, inclusive and representative decision-making as fundamental for a well-functioning society.

How did the housing market change in Norway in the eighties?

The eighties were a turbulent decade for the housing sector in Norway, with strong housing price growth and credit growth followed by a strong housing price decline and credit crisis, at the same time as the liberalization of the housing market made housing construction exposed to the economic cycle and exposed to risks (Kronborg, 2022).

What is Norway doing to ensure gender-responsive implementation of the 2030 Agenda?

Norway will give special priority to efforts to ensure that girls and women, people with disabilities, young people, ethnic minorities and people affected by conflict and crisis are reached, not left behind. Gender-responsive implementation of the 2030 Agenda must be ensured.

Will Norway meet SDG 13?

As for the crucial area of climate change, national follow-up of the Paris Agreement will constitute the main basis for action to fulfil SDG 13. Norway is committed to reducing emissions by at least 40 % by 2030, compared with the 1990 level. Norway is engaged in a dialogue on joint fulfilment of its 2030 commitment together with the EU.
