

Rooftop solar storage supplier quotation in Indonesia 2026

What is Indonesia's quota for rooftop solar in 2024-2028?

In June 2024, Indonesian authorities issued a quota for the development of rooftop solar systems by the state electricity utility PLN for the period 2024-2028, aiming to add 5.75GW of installed PV capacity to the country.

Does Indonesia have a quota system for rooftop solar power plants?

Since July 2024, the Indonesian government has officially implemented a quota system for installing rooftop Solar Power Plants (PLTS) connected to the PLN grid as stated in the Regulation of the Minister of Energy and Mineral Resources No. 2 of 2024.

How many rooftop solar panels will Indonesia install by 2028?

[Indonesia: By 2028, the installed capacity of rooftop PV will reach 5.7GW] Indonesia's Ministry of Energy and Mineral Resources (EMR) has set a quota for Indonesian state power company Perusahaan Listrik Negara (PLN) to install more than 5.7GW of rooftop photovoltaic systems by 2028.

Why is a rooftop PV quota a 'positive signal' for Indonesia's solar industry?

According to Mada Ayu Habsari, general chairman of the Indonesian Solar Energy Association (ISEA), the size of the rooftop PV quota provides a 'positive signal' for the Indonesian solar industry, providing certainty for domestic developers and making it easier for them to develop business plans.

What is a rooftop solar PV quota?

In 2027, it became 1,183 MW, and the increase continued until it reached 1,593 MW in 2028. This rooftop solar PV quota regulation is part of the implementation of Permen No. 2 of 2024, which regulates the development of rooftop solar PV through a quota system, adjusting to the electricity capacity owned by PT PLN (Persero).

How many solar PV quotas are there in Indonesia?

Indonesian think tank Institute for Essential Services Reform (IESR) says the total rooftop solar PV quotas in 11 power systems between 2024 and 2028 consist of 5,746MW of new capacity, which can be divided into annual quotas of 901MW for 2024, 1,004MW for 2025, 1,065MW for 2026, 1,183MW for 2027, and 1,593MW for 2028.

The Indonesia Institute for Essential Services Reform (IESR) recently released its "2025 Indonesia Solar Outlook" report, revealing that as of August, the country's installed photovoltaic capacity reached 717.71 MW.

Rooftop solar storage supplier quotation in Indonesia 2026

We found out that residential rooftop solar technical potential in Indonesia amounts to 194 - 655 GWp. And by considering homeowners assumed to have financial capacity to install rooftop solar, 17.8% of the potential can be ...

The number of rooftop photovoltaic (PV) systems in Indonesia has increased massively following the implementation of the net-metering (NEM) scheme. However, it is still ...

However, regulations set by the Ministry of Energy and Mineral Resources (ESDM) raise concerns, potentially limiting rooftop solar's full growth potential. This study focuses on the ...

Japan Solar Rooftop Panels Market size was valued at USD 5 Billion in 2024 and is projected to reach USD 15 Billion by 2033, growing at a CAGR of 14% from 2026 to 2033.

A pure Grid Export (or Grid-Tie) Solar Solution does not address the day-night or occasional running requirement. Statcon Energiaa offers State-of-the-Art Solar Hybrid Solution which caters to the 24 x 7 need of Solar cold storage and can ...

On 25 June 2024, PLN and MEMR held a virtual socialization event (25 June Socialization) to launch the online-based systems for the implementation of the new Rooftop ...

Solar rooftop potential is based on a rooftop's size, shading, tilt, and location. As of 2024, India's renewable capacity exceeds 200 GW, with solar leading at 94.17 GW.

For the Java-Madura-Bali (Jamali) system, which dominates rooftop solar installations in Indonesia, the quota is set at 825 MW in 2024, 900 MW in 2025, 910 MW in 2026, 1,010 MW in ...

This year, the quota for rooftop solar power systems is 901 Megawatts (MW). The quota continues to increase yearly, reaching 1,004 MW in 2025 and 1,065 MW in 2026.

Indonesia's Ministry of Energy and Mineral Resources (EMR) has set a quota of 5746MW for the installation of rooftop PV systems between 2024 and 2028:901MW in 2024, 1004MW in 2025, ...

Tata Power Solar Rooftop Marks Major Milestone with 1.5 lakh+ Rooftop Solar Installations, 3 GW Capacity; Expands Footprint across 700+ Cities 20th March, 2025

Indonesia issues MEMR Reg 2/2024, new regulation on rooftop solar power plants. Key provisions include quota system for IUPTLU holders, removal of capacity charges and net-metering schemes, new application ...

Solartech Indonesia 2026 has become ASEAN's Largest Trade Show for Solar PV and Energy Storage

Rooftop solar storage supplier quotation in Indonesia 2026

Systems and a professional show of choice for ASEAN's Solar Installers, EPC, IPP, contractors, property developers, solar PV ...

Inecosolar Is A Leading Provider Of Top Quality Solar Panels Systems In Indonesia. Explore Our Range Of Solar Energy Solutions For Commercial, Industrial And Residential Sectors.

Solar.id is your trusted source for solar panels, battery energy storage systems, inverters, and solar equipment in Indonesia. We provide high-quality, reliable, and affordable solar solutions for homes, businesses, and industries. Join the clean ...

Solar & Storage Live Indonesia 2025, the latest addition to the world's largest portfolio of clean energy events, will be a forward-thinking, dynamic, and innovative exhibition that showcases the cutting-edge technologies driving ...

The distribution of rooftop solar quotas in Indonesia is based on the electric power system. Between 2024 and 2028, a quota of 5,746 MW has been set. This breaks down into 901 MW in 2024, 1,004 MW in 2025, 1,065 ...

According to Mada Ayu Habsari, general chairman of the Indonesian Solar Energy Association (ISEA), the size of the rooftop PV quota provides a "positive signal" for the ...

A solar rooftop system consists of solar panels mounted on the rooftop of a residential building or structure capable of producing clean energy. It enables households to generate clean, reliable, and uninterrupted energy to power ...

It is calling on the government to pay attention to customer interest in the adoption of rooftop solar so it can increase the quota in 2025, in an effort to achieve a targeted ...

Image: Sun Energy. In June 2024, Indonesia issued rooftop solar PV system development quotas for state electricity company PLN between 2024 and 2028, aiming to add 5.75GW of capacity in the country.

This is a significant change to the operational landscape as it removes the incentive (i.e., the possible decrease of electricity bills) for consumers to invest in rooftop solar systems. On the other hand, New Regulation eliminates the ...

Rooftop Solar Power Systems Market size was valued at USD 35 Billion in 2024 and is projected to reach USD 103 Billion by 2033, growing at a CAGR of 14.6% from 2026 to 2033.
