The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.

Battery Systems got its start in 1955 in Southern California, when Harry Streelman, nicknamed "Deadcell Harry", started the business as an early rebuilder of batteries. Harry Streelman's sons carried the business forward and advanced the Battery Systems presence to over 30 locations by 1990.

Accelera battery packs, modules and systems are designed to meet your exact energy needs while reducing greenhouse gas emissions (GHG). Our solutions are rechargeable, renewable and produce no emissions at the tailpipe. We have the technology to power a better today and as we continue to advance innovative electric drive technology, we are ...
