

Santacc energy co ltd Mauritania

In the morning of July 15th, 74 sets of ethylene heat exchanger for 1.5 million tons/year of Shandong Yulong Petrochemical project, contracted by Santacc Energy Co., Ltd., was officially started. Firecrackers were lit and fireworks ...

Water Electrolysis According to the demand of modern engineering modularization development, our company has the ability to independently research and develop, d... TEL: 0086-511-88229828 EMAIL: info@santacc Online VR

In the morning of July 15th, 74 sets of ethylene heat exchanger for 1.5 million tons/year of Shandong Yulong Petrochemical project, contracted by Santacc Energy Co., Ltd., was officially started. Firecrackers were lit and fireworks were blooming. The company's senior leaders and all th...

Electrical desalination project No. 137, oil refining Company, Petroleum Ministry, Jordan Chad project of Liaohe Engineering Co., LTD Sudan FPF project Sinopec Qingdao Refining and Chemical Co. LTD Zhonghai Asphalt (yingkou) Co. LTD Sinopec Beijing yanshan Branch 8 million tons/year project

CEDEC changed its name to "SANTACC Energy Co., Ltd. (referred to as "SANTACC") and began to transform from equipment manufacture to equipment service. 2017. Won the prize of 19th China patent. Finished large-scaled ...

On January 21, 2024, the Baowu Steel Slag Carbon Sequestration Demo Device developed by SANTACC for Baowu Steel Group was shipped to the site; this device adopts an advanced new carbon mineralization CCUS technology, which captures, absorbs, and reuses the CO₂ in the flue gas emitted by iron and steel enterprises, and reduces the CO₂ emission in industrial off-gas ...

Electrostatic Desalter and Electrostatic Dehydrator. Type: DC type, AC type, AC-DC type, High-speed and High intelligence response, multi-gradient confound Product size: Customized design and manufacture according to application condition and client's request. Material: carbon steel, cladding material such as Carbon steel + stainless, Carbon steel + Nickel base alloy.

SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil-water separation technology.

SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil-water separation ...

Crude oil (product oil) export transportation Metering and prover skid. Metering system is an integrated "project", with its high precision and stability, widely used in the oil and gas industry, nearly 80% of the global trade handover are using ...

CEDEC changed its name to "SANTACC Energy Co., Ltd. (referred to as "SANTACC") and began to transform from equipment manufacture to equipment service. 2017. Won the prize of 19th China patent. Finished large-scaled electric desalting tanks to be applied to the phase-1 of Zhejiang PetroChemical Co., Ltd. Obtained pipeline installation and ...

In the morning of July 15th, 74 sets of ethylene heat exchanger for 1.5 million tons/year of Shandong Yulong Petrochemical project, contracted by Santacc Energy Co., Ltd., was officially started. Firecrackers were lit and fireworks were blooming. The company's senior leaders and all the project workers attended the ceremony.

Santacc Energy Co.,Ltd as a national high-tech enterprise, was founded in 1987. It is the first specialized company, which engages in development, designing, manufacturing, installation,...

TEL: 0086-511-88229828 EMAIL: info@santacc Online VR. English We have been continuously improving and focusing on technological innovation to become an international brand company. CNC drilling and milling machine: 8000*4000*800mm, ...

We have been continuously improving and focusing on technological innovation to become an international brand company. CNC drilling and milling machine: 8000*4000*800mm, drilling diameter 60mm, stroke 600mm

To provide energy industry with energy conservation and environmental protection with advanced technology production and services. ... SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil ...

The electric dehydrator relies on the electric field force to demulsify and dehydrate the water-in-oil emulsion. It has high efficiency and fast speed, and is widely used in various oil fields. At present, the electric dehydrator uses a sinusoidal AC power supply with a power frequency of 5...

Water Electrolysis. Taking water as raw material, utilizing surplus, cheap and unstorable valley electricity or electricity generated from renewable energy sources such as photovoltaic, wind power, hydropower, etc.; catalytic electrolysis of water is carried out, and water molecules undergo electrochemical reactions on the electrodes, generating hydrogen at the cathode and ...
