

Solargaps ltd Ecuador

What is SolarGaps?

SolarGaps is a company that has been on a mission to make energy free and accessible to all since 2015. They are pioneering a method of energy distribution that will power offices, homes, and cities of the future. By exploring innovative concepts and adopting new technologies, SolarGaps can help move every city closer to their Net Zero goals.

Why should you choose solargaps facade blinds?

SolarGaps facade blinds automatically adjust the angle of its blinds for the most effective shading performance and solar power production. Our smart blinds are mounted on the outside of the building and serve as a heat shield which helps to maintain a comfortable room temperature.

Why should you invest in solargaps?

Due to environmental problems like global warming, air pollution, acid rain, etc., many countries around the world provide loans, investments and tax deductions to provide a positive ecological impact on our planet. You can get reports from SolarGaps and control the blinds with your smartphone.
