

Does Bangladesh have a solar system?

Meanwhile, Bangladesh is heavily investing in distributed systems through the world's largest off-grid solar system program, the Rural Electrification and Renewable Energy Development (RERED) Project. Since 2003, this solar home systems program has electrified areas that are home to over 20 million people across the country.

Why is Soltec a sustainable company?

Soltec's activity, sustainable since its conception in 2004, has a firm purpose: to create a clean, sustainable and fair world through energy. How simple actions can make a difference and contribute to a more sustainable and environmentally responsible future. This is how we do it at Soltec.

Is Bangladesh a good place to start a solar farm?

Bangladesh is a low-lying country with high solar irradiation levels, giving it the potential for large-scale PV farms. Additionally, it is located in the largest river delta in the world - the Ganges Delta - which means a lot of water among a predominantly flat landscape. In these conditions, large solar farms have great potential.

Which conglomerates dominate the economy of Bangladesh?

Small, medium and large family owned conglomerates dominate over Bangladesh's economy. Most of these businesses in Bangladesh are grouped as conglomerates unlike other countries. This list includes notable companies with primary headquarters located in the country.
