

South Africa home solar solutions

Solar energy is free, renewable and clean, but you need to have the right equipment to harness it. You can find this equipment at Solar4Life. Solar power is the energy that is created when sunlight is converted to electricity. In South Africa, we are privileged to have up to 250 hours of sunlight each year, and all of this energy is mostly going to waste.

JS Solar | Solar Systems in South Africa. Every step JS Solar takes towards a constant solar energy supply and combating the weak infrastructure in our country equals a better future for our children. Consumers can certainly make meaningful changes, but it's up to home owners and companies, large and small, to truly help reshape the future of our country.

At AM Solar, we bring over 13 years of experience in providing tailored solar solutions. Our wide coverage across various provinces in South Africa ensures that we can meet the unique needs of our clients.
