

Successful bid price of backup power battery project in Bulgaria 2026

How many project proposals were submitted in Bulgaria's energy storage procurement procedure?

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh.

How will the selected storage systems be distributed in Bulgaria?

The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March 2026.

How much money does the NRRP provide for energy projects in Bulgaria?

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding.

Will battery projects contribute to the security of the energy system?

The successful implementation of battery projects will significantly contribute to the security of the energy system in Bulgaria and the region." The public call was open for projects equal to or greater than 10 MW with at least two hours of storage capacity, which will be primarily used in the frequency regulation markets.

Explore the implications of PJM's record-high capacity prices for the 2026/27 BRA, highlighting how storage assets can leverage this market shift for maximum returns.

Successful bidders are expected to conclude their grant agreement around January 2025. Applications will be reviewed and ranked based on the requested grant per ...

A call for new energy storage capacity in Bulgaria has awarded 9,712.89 MWh of projects with a total investment value of BGN 1.149 billion (USD 675.8m/EUR 587.5m), the Balkan country's energy ministry said on Thursday.

The bid price for an energy storage project is determined by various factors, encompassing 1. project specifications, 2. regional market conditions, 3. technolo...

The company's investment plan includes Italy, where it recently commissioned the first two solar parks. Public Power Corp. - PPC Group said it commenced the construction ...

In June 2024, the 25 MW / 55 MWh utility-scale battery energy storage system (BESS) located in Razlog

Successful bid price of backup power battery project in Bulgaria 2026

Municipality, Southwestern Bulgaria commenced commercial operations. This ...

A solar battery costs \$8,000 to \$16,000 installed on average before tax credits. Solar battery prices are \$6,000 to \$13,000+ for the unit alone, depending on the capacity, type, and brand. A ...

Each project can receive up to 50% of its approved costs per MWh, with a maximum grant of 76 million euros per project. Launched in August, the tender was delayed ...

Bulgaria will develop around 6 GWh of battery storage capacity by mid-2026 and build a battery manufacturing plant near the town of Stara Zagora in central Bulgaria, said ...

The tender for the design, manufacture, installation and 20-year operations & maintenance (O& M) of battery energy storage systems (BESS) for Power China's 2025-2026 ...

A battery energy storage system (BESS) described as the largest deployed to date in the European Union (EU) has been commissioned in Bulgaria. Officials with the country's Ministry of Energy said ...

Bulgaria on track to add 1.5 GW of solar power by mid-2026 05 August 2025 - The pace of large photovoltaic projects in Bulgaria indicates that total capacity can reach 6 GW by the middle of next year

AMEA Power awarded two projects through Bid Window 2 of the Battery Energy Storage Independent Power Producers Procurement Programme (BESIPPPP) in South Africa. The Gainfar and Boitekong projects are both ...

Bulgaria has installed between 40 MWh and 50 MWh of battery energy storage capacity to date. However, new national legislation as well as funds provided through the European Union's Recovery and Resilience Facility ...

The deadline for putting the project into operation is 31 March 2026. A key requirement is that a conceptual design of the project must be submitted in the application ...

1. Expected Tender Requirements The BESS tender is part of Bulgaria's RESTORE Project, which aims to provide funding for constructing and putting into operation at ...

This auction is a crucial part of Bulgaria's National Recovery and Sustainability Plan, aiming to support economic and social recovery post-pandemic while promoting the ...

Battery projects offer significant opportunities to stabilize power grids and optimize the use of renewable energy sources. However, the complexity of the market and the challenges of ...

Successful bid price of backup power battery project in Bulgaria 2026

CEELM: What are the main/largest energy projects you expect to be finalized in Bulgaria in 2025? Piperkova: To name a few, we expect to have the first Enka project in Bulgaria - the Kameno 40-megawatt peak photovoltaic project - in ...

Billed as the largest operating battery energy storage system in Bulgaria to date, the 25 MW/55 MWh facility, developed by Austria's Renalfa IPP, came online at the start of the month.

Prepare your business for Bulgaria Euro Adoption 2026--key changes, fixed exchange rate, accounting updates, and essential tips for a smooth transition.

Bulgaria earmarked EUR 589 million for the endeavor, funded under the European Union's Recovery and Resilience Facility. The Ministry of Energy in Sofia plans to launch a tender on September 2 for standalone ...

A South African investor opened a battery factory in Rousse last year Bulgaria is relying heavily on battery technology and energy storage overall in its energy transition. Belgian company ABEE launched a EUR 1.1 billion ...

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy ...

Launched in August 2025, the project is expected to be operational by March 2026, with the integration into Bulgaria's energy grid anticipated for early 2026. Sermatec will provide ongoing ...
