

# Successful bid price of business energy storage project in Australia 2025

Did Australia invest in energy storage projects in Q1 2025?

Australia's remarkable run of investment commitments to energy storage projects continued in Q1 2025. Six storage projects representing 1,510 MW (capacity) /5,016 MWh (energy output) reached financial close - the second-highest quarterly result for newly financially committed storage projects.

How many battery storage projects commenced construction in 2025?

In addition to the six projects that reached financial commitment, a further three battery storage projects commenced construction in the first quarter of 2025, with a total of 840 MW /2.9 GWh in storage capacity /energy output.

What did CEC say about energy storage in Q1 2025?

The Clean Energy Council's (CEC) latest Quarterly Investment Report: Large-scale renewable generation and storage Q1 2025 has revealed that the first quarter of 2025 saw six BESS (battery energy storage systems) projects deliver an extra 1.5GW in storage capacity and 5GWh in energy output.

How many storage projects are there in Australia?

There are also 69 committed storage projects (either standalone or hybrid projects) currently in this pipeline, equivalent to 12,532 MW /32,078 MWh in capacity /energy output. Read the latest updates from the Clean Energy Council and across the industry. When it comes to Australia's energy future, communities have legitimate questions.

How much is battery storage worth in Australia?

Credit: Phonlamai Photo /Shutterstock. The first quarter (Q1) of 2025 has seen a surge in investment for large-scale battery storage in Australia, with six projects worth a total of A\$2.4bn (\$1.5bn) reaching the financial commitment stage, according to the latest Clean Energy Australia Report 2025.

Which battery storage companies have won a bid?

Successful bids include United Kingdom-headquartered battery storage business Eku Energy for its proposed 100 MW /800 MWh Griffith battery energy storage system (BESS) located in the Riverina region.

Here we provide a snapshot of renewable energy projects that are under development around the country which will soon be feeding clean, low-cost energy into the Australian electricity market.

Ontario's Independent Electricity System Operator (IESO) has unveiled its largest procurement of battery energy storage projects to date and a new investment into its natural gas network.

Kalkine Media provides essential financial news, economic data, and market trends for Australian audiences.
