

# Successful bid price of solar plus storage project in India 2025

How many mw can a solar-plus-storage project run in India?

This RfS was released on June 19,2025. The tender aims to attract developers who can build,own,and operate these solar-plus-storage projects anywhere in India,interconnecting them with the Inter-State Transmission System (ISTS). The minimum capacity that can be quoted is 50 MW,and the maximum allowed is 600 MW,in multiples of 10 MW.

How has the solar-plus-Bess market changed in India in 2024?

In 2024,the scenario changed significantlyfor the solar-plus-BESS segment in India. In March 2024,SECI shared the first large-scale build-own-operate (BOO) tender for 1.2 GW of solar PV with 0.6 GW/1.2 GWh of BESS capacity. The tender was very well received by the industry and saw the lowest tariff discovery of Rs 3.41 per kWh.

How many solar tenders have been launched in India?

Between 2019 and 2023, 11 more such tenders, totalling 80 MW of solar with 150 MWh of BESS capacity, were launched by the Solar Energy Corporation of India (SECI), Karnataka Renewable Energy Development Limited and TANGEDCO.

What is SECI's solar-plus-storage tender?

SECI issued a request for selection last week seeking 1.2GWof solar PV and 600MW/3.6GWh of BESS. Credit: Solar Energy Corporation of India. State-owned firm Solar Energy Corporation of India (SECI) has launched a solar-plus-storage tender seeking 1.2GW of solar PV.

When will solar-plus-storage & solar-wind hybrid tenders open in India?

A pre-bid meeting for the tender takes place on 10 July 2025,and bidding will open on 21 August. Solar-plus-storage and solar-wind hybrid tenders have been on the rise in India last year. Nearly half of the 73GW capacity tendered in 2024 is coming from hybrid tenders.

How many solar-with-Bess opportunities are still open in India?

As of February 2025,10.6 GW of solar with 12.5 GWh of BESS capacity has already been tendered with 4.3 GWof solar-plus-7 GWh BESS opportunities still open. Table 1 provides a detailed update on all solar-with-BESS tenders issued till date by various nodal agencies in India.

Bidders are required to submit tender documents outlining their proposed approach to the project, including logistics, technical design, company structure, examples, and references from previous projects, as well as cost. ...

This tariff was achieved in a tender by SJVN Ltd for a project that includes 1200 MW of solar power

# Successful bid price of solar plus storage project in India 2025

combined with 600 MW/2400 MWh of energy storage. This newly ...

Solar Energy Corporation of India (SECI) has revealed the results of a reverse auction for solar PV paired with battery storage that will connect to the Inter State Transmission ...

The competitive bidding process resulted in a total of five winning bids, marking a significant step towards integrating solar energy with advanced storage technologies into ...

India's clean energy momentum is gaining pace, with 22 GW of solar capacity installed in the first half of 2025 and a record 7.6 GW of Battery Energy Storage Systems ...

Sembcorp secured a major solar and battery storage project in India. The project will provide 150 MW of solar power and 300 MWh of battery storage. SECI awarded the project to Sembcorp Green Infra. This boosts ...

Only 3 projects of the 32 tendered during the year were cancelled. The Solar Energy Corporation of India (SECI) discovered its lowest tariff of Rs 3.41 for its 1200 MW of solar+storage projects in July this year. This ...

The Solar Energy Corporation of India (SECI) has recently announced the results of its latest tender for solar photovoltaic (PV) projects combined with battery storage systems. ...

This RfS was released on June 19, 2025. The tender aims to attract developers who can build, own, and operate these solar-plus-storage projects anywhere in India, interconnecting them with the Inter-State ...

Reliance, Jindal, SAEL, Sembcorp, JBM, Hindustan Power Win SJVN's 1200 MW Solar Plus ESS Auction SAEL Industries, Jindal India Renewable Energy, Sembcorp Green, JBM Renewables, Fastnote Biofuels ...

NTPC Renewable Energy, Sembcorp Green Infra, Solarcraft Power India 8 (Blupine Energy), Hero Solar Energy, and Reliance Power have won the Solar Energy ...

In a major boost to India's renewable energy landscape, NHPC Limited has awarded 1,200 MW of ISTS-connected solar power projects integrated with 600 MW/2,400 ...

The growing interest in solar with storage tenders does not mean that they will be the only kind of tenders going forward, although more activity will be seen around such tenders in 2025 and beyond.

The Solar Energy Corporation of India (SECI) has recently announced the results of its latest solar and storage tender, marking a significant step in India's renewable ...

BC Jindal Group's JIRE secures a 300-MW solar energy project from SJVN Ltd, part of a larger 1,200-MW

# Successful bid price of solar plus storage project in India 2025

solar power initiative including battery energy storage systems. JIRE aims to expand its renewable energy capacity ...

The Ministry of Power has issued tariff-based competitive bidding guidelines to procure stored energy from existing, under-construction, or new Pumped Storage Projects (PSP). According to the...

In 2024, SECI awarded its first Solar plus energy storage (ESS) tender. The tariff for this project was discovered at Rs. 3.41/kw for a 1.2 GW project. The lowest bid under BOO ...

Despite this success, it remains early days for India's solar-plus-storage tenders--as shown in Debmalya Sen from IESA's chart below, only 200MW of solar PV and 200MWh of battery storage has been put into ...

Plummeting costs of solar and battery storage in India along with technological improvements are opening new opportunities for clean and low-cost power generation. Recent energy storage auctions in India reveal record-low prices, ...

Content Owned by MINISTRY OF NEW AND RENEWABLE ENERGY Developed and hosted by National Informatics Centre, Ministry of Electronics & Information Technology, ...

A new study reveals that India can now provide round-the-clock electricity through solar-plus-storage systems at a competitive rate of under INR6/kWh, cheaper than coal, signaling a major shift in the energy landscape ...

India's Ministry of Power has mandated that all renewable energy implementing agencies (REIAs) and State utilities must incorporate a minimum of two-hour co-located energy storage systems (ESS), equivalent to ...

JIRE won the bid for 300 MW of solar capacity at a tariff of INR3.32 per unit. The project will be developed on a build-own-operate basis and is to be commissioned within 24 months from the date of signing the power purchase ...

The successful bidder will be awarded the project and will be responsible for the delivery of the contracted capacity, as outlined in the Battery Energy Storage Purchase Agreement (BESPA). The total contracted capacity ...

Further info on the solar-plus-storage tender, "RfS for Setting up of 1200 MW ISTS-connected Solar PV Power Projects with 600 MW/1200 MWh Energy Storage Systems ...
