

Successful bid price of wind solar storage project in Ireland 2025

Did a solar project secure a contract in the RESS auction?

Statkraft saw three solar projects secure contracts in the RESS auction. Image: Statkraft. Provisional results for the second auction in Ireland's Renewable Electricity Support Scheme (RESS) have been published, showing that 1,534.1MW of solar PV was successful - equivalent to 78% of total capacity.

How much capacity is secured for onshore wind & new battery energy storage?

Capacity secured for onshore wind and new battery energy storage in T-4 provisional results - The provisional results of the Ireland T-4 2028/29 auction were published on Friday 20 December with a total of 5,942MW of capacity agreements awarded to auction participants at a clearing price of EUR149,960/MW.

How many solar projects did Res 1 secure?

RESS 1, meanwhile, saw 796MW of solar secure contracts compared to 479MW of wind, smashing the expectations that solar would secure 100-300MW. A total of 114 wind and solar projects applied to participate in the qualification process, with 109 approved to participate. Of these, 82 were provisionally successful.

How much wind energy is wasted in Ireland?

According to Energy Storage Ireland, 14% of all wind energy generated in Ireland last year was wasted due to lack of storage. Ireland's energy storage could increase eightfold by 2035, according to a new report by Energy Storage Ireland.

How much wind energy does Ireland need?

In January 2025, wind farms generated 1,272 GWh, covering one-third of Ireland's electricity needs. Wind energy saved the country over EUR1.2 billion on gas imports in 2024. The government's target: 9 GW of onshore wind by 2030, alongside at least 5 GW of offshore wind.

How much energy does Ireland use in 2023?

As of 2023, fossil fuels accounted for 82.7% of Ireland's primary energy use. This marks an improvement from 91.4% in 2013, showing steady but slow progress. Renewables made up 14.1% of the total primary energy in 2023. Key takeaway: Electricity is getting greener, but heating, transport, and industry still rely heavily on gas and oil.

In 2025, Ireland's energy status reflects major strides in wind and solar power, alongside challenges and future prospects for sustainable growth.

Ireland is a world leader in onshore wind, with the third highest wind generation in the world. The RESS 2 auction continues to build on this and will diversify our energy supply ...

Successful bid price of wind solar storage project in Ireland 2025

Bids will also be invited for 1,100MW of solar projects that feature an energy storage component, which the DOE has dubbed Integrated Renewable Energy and Energy Storage Systems (IRESS).

This chart shows winning tariff range for all central and state government tenders issued in respective states. This chart gives detail of all bids placed by project developers. For solar ...

"Ireland is already a wind energy success story. Irish wind farms provided 48% of Ireland's power last February, and last January 2025, a significant milestone was reached - ...

A bid by Drumnahough Wind Farm DAC for a contract to provide new onshore wind from a planned wind farm in Co. Donegal has been successful in Ireland's latest competitive auction for onshore wind and solar energy.

The Drumnahough Wind Farm DAC bid was successful in the Government's latest competitive auction for onshore wind and solar energy. The 12-turbine Drumnahough onshore wind project is a 50/50 co-development from ...

Coming online in 2022 Gallanstown Solar Farm in Co. Meath is owned by Octopus Renewables Ltd, a UK investment trust which invests in renewable energy infrastructure. The 198MW solar farm, located outside the ...

Platts has launched an "interactive explorer" tool that shows the capture price received by wind and solar power assets, using hourly production and monthly average price data for Spain, Germany ...

Task 47 - TURBINIA TURBulent INflow Innovative Aerodynamics Task 56 - OC7 Project (Offshore Code Comparison Collaboration 7) Task 25/63 - Twenty Fifty Integration of Variable Energy (TWENTY-FIVE) Task 61 - Variable Renewable ...

- Capacity secured for onshore wind and new battery energy storage in T-4 provisional results - The provisional results of the Ireland T-4 2028/29 auction were published ...

Clonfad Solar Farm As of January 2025, the largest solar farm currently under construction in Ireland is the Clonfad Solar Farm, located in County Westmeath. Developed by ...

Clonfad Solar Farm As of January 2025, the largest solar farm currently under construction in Ireland is the Clonfad Solar Farm, located in County Westmeath. Developed by Statkraft, this substantial project boasts a ...

If this pipeline was built out, the report states that Ireland could capture all of that wasted energy, further reducing our reliance on fossil fuels, and driving down energy costs for ...

Successful bid price of wind solar storage project in Ireland 2025

‘; Xavier Barbaro, Neoen's Chairman and Chief Executive Officer, added: ‘; The launch of the construction of the Ballinknockane solar farm combined with the success of our ...

On March 25th, 2025, Ireland reached a new record for grid-scale Solar power, generating over 750 Megawatts (MW) at one point, 18 MW more than the previous peak set in July 2024. This ...

A bid by Drumnahough Wind Farm DAC for a contract to provide new onshore wind from a planned wind farm in Co. Donegal has been successful in Ireland's latest ...

In total, 6.3GW was awarded across wind and solar PV power plants. Image: EDL. The first Capacity Investment Scheme (CIS) tender round in Australia successfully awarded 3.5GWh of co-located battery energy storage ...

Planning Dashboards 2025 Record quarter for wind energy approvals from An Bord Plean‘;la An Bord Plean‘;la approved seven wind energy projects in the first three months of 2025, with a combined capacity of 402 MW, and rejected ...

Developers brought 11,623 MW of utility-scale solar, wind, and energy storage projects online in the second quarter of 2025, up 1% from the 11,491 MW installed in the same ...

Key aspects of the results: 2,747.89 GWh of the 3,772 GWh bids submitted have been identified as provisional winners this equates to approximately 414 MW of onshore ...

EirGrid, state-owned power grid of Ireland, has just recently released the list of final bidders winning the auction of twin releases-- 414 MW onshore wind and also 1534 MW ...

The eight solar PV projects, totalling 1,760MW, appointed as preferred bidders under South Africa's Renewable Energy Independent Power Producers Procurement Programme (REIPPPP) Bid Window 7 may yet be ...

Ireland's onshore wind farms, supported by new offshore wind projects, solar, storage and a new generation of advanced interconnectors, will secure the future of a prosperous, competitive, ...

The project, which secured an agreement at a clearing price of ‘;150,000/MW, is targeting a final investment decision in 2025 for delivery by the end of 2026. These ...
