Dedicated and fully committed, the SUNation Energy team consists of a talented and resourceful group of professionals. Most of the staff have been involved in the solar industry for 10, 15, or 20 years or more, and we pride ourselves in furthering our education in solar technology and being knowledgeable about the latest techniques, products and installation.

1. Energy-Efficient Lighting. It's remarkable how such a simple change can lead to substantial energy savings. Traditional incandescent bulbs are notorious energy hogs, but there's a more efficient path. By upgrading your lighting to energy-efficient alternatives like LED and CFL bulbs, you can potentially save up to 80% on your lighting costs.
