In this Capgemini Research Institute report, The Eco-Digital Era TM: The dual transition to a sustainable and digital economy, developed in collaboration with the Digital Value Lab at the Digital Data Design Institute at Harvard, we delve in-depth into the digital economy and how, in addition to its business benefits, it has the potential to ...

The energy transition is a generation-defining challenge. But we believe it's not just what it averts, but what it enables in our economy and society, that matters. We envision a world in which energy is clean, affordable and abundant, powering a new wave of industrial growth and social opportunity.. The energy industry's transition to clean energy is a fundamental enabler for ...

Svalbard and Jan Mayen sustainable energy companies

Longyear had visited Svalbard for the first time as a cruise passenger in 1901. In 1916, the Store Norske Spitsbergen Kullkompani took over the mining operations from Longyear's Arctic Coal Company, and the settlement was renamed Longyearbyen. The Svalbard Treaty was signed on 9 February 1920 and entered into force on 14 August 1925.

Statkraft's proposal focuses on using hydrogen as energy carrier and starting point for energy production in Svalbard. The proposal was presented to the Ministry of Petroleum and Energy (OED) on 9 November 2018.
