Solar power systems in Tanzania can be qualified according to various metrics. However, most commonly, systems are classified according to size, application or technology. Below is an overview of various types of solar systems. ... Actually, they could be better off with a battery-based backup system or a generator (or a combination thereof ...

The 40 kWh data is clearly a bit better distributed across the plot. Regardless, it isn't a large enough data set to make a definitive correlation for either battery pack. There appear to be a lot of outliers in both sets. Unfortunately, most people just listed their SOH and odometer reading, not the age of the battery.

I have been considering getting a 2014 and up Leaf. I know some have battery degradation. I have seen where you can replace the 40 kW battery with a 62 kW battery. They do make a pigtail that allows you to connect it and you have to run some battery diags so your computer will be able to connect to the new battery.
