We are trading in - Fertilisers DAP and NPK Di-ammonium phosphate (DAP) fertiliser. It is the most popular phosphatic fertiliser because of its high nutrient content and good physical properties. The composition of DAP is 18% Nitrogen and P<sub>2</sub>O<sub>5</sub> 46%. Within the same facility, Hindalco can also produce nitrogen phosphorus potassium (NPK) complexes as value-added ...

We are trading in - Naphtha The main uses of petroleum naphtha fall into the general areas of (1) precursor to gasoline and other liquid fuels, (2) solvents (diluent) for paints, (3) dry-cleaning solvents, (4) solvents for cutback asphalts, (5) solvents in rubber industry, and (6) solvents for industrial extraction processes. The key difference between naphtha and gasoline is that the ...

We are trading in - Automotive Gas Oil Automotive Gas oil, also known as diesel, is generated from crude distillation process and is used to efficiently power internal combustion diesel engines. Our diesel conforms to the specifications from the Department of Petroleum Resources (DPR). Automotive Gas Oil, or AGO, is the name given to fuel intended for use in road ...

Petroleum coke, abbreviated coke or petcoke, is a final carbon-rich solid material that derives from oil refining, and is one type of the group of fuels referred to as cokes. Petcoke is the coke that, in particular, derives from a final cracking process--a thermo-based chemical engineering process that splits long chain hydrocarbons of petroleum into shorter chains--that takes place ...

We are trading in - Base Oil N60 Base oils are used to manufacture products including lubricating greases, motor oil and metal processing fluids. Different products require different compositions and properties in the oil. One of the most important factors is the liquid's viscosity at various temperatures. Whether or not a crude oil is suitable to be made into a base oil is determined by ...

We are trading in - IMPCA Notes: Sulphur Whilst the scope of ASTM D 5453 is stated to be for various fuels containing 1.0 to 8000 mg/kg total sulphur, IMPCA consider this method to be suitable for the determination of total sulphur in methanol provided that the laboratory performing the analysis has demonstrated that it can achieve a Limit of Detection < 0.5mg/kg with the ...

ASPO ENERGY LTD. Reg. Number ?? 360884. Type Limited Company. SubType Private. Registration Date 06/10/2016. Organisation Status Active. Annual Return 07/04/2022.

ASPO Energy Ltd | 451 followers on LinkedIn. Trading in Fuel, Oil & Gas | ASPO ENERGY is a trading company which specialized in fuel, oil, gas, and energy products trading across the globe.

Our Recommended - Oil Terminal Or Tank Farm An oil terminal (also called a tank farm, tankfarm, oil

installation or oil depot) is an industrial facility for the storage of oil, petroleum and petrochemical products, and from which these products are ...

We are trading in - Base Oil N70 Pure Performance 70N is a high purity, low viscosity paraffinic oil produced from a high-pressure hydrocracking and hydro-dewaxing process that removes virtually all metals, sulfur, and nitrogen from the feedstock. Customers purchase Pure Performance 70N for a wide variety of uses, including use as a process oil, ATF formulations, ...

ASPO Energy Ltd | 425 followers on LinkedIn. Trading in Fuel, Oil & Gas | ASPO ENERGY is a trading company which specialized in fuel, oil, gas, and energy products trading across the globe.

We are trading in - HSD2 50PPM Diesel Quest Petroleum Diesel 50 PPM is a highly refined, middle distillate, hydrocarbon fuel; and it contains less than 0.005% sulphur by mass. These extremely low sulphur levels enable the diesel to be compatible with emission control devices such as catalytic converters and diesel particulate traps. ApplicationsQuest Petroleum Diesel ...

We are trading in - Base Oil SN 650 This means that crude oil is heated in order that various distillates can be separated from one another. It has been solvent refined, dewaxed, and hydrogen treated to take out impurities. This oil has no impurities or compounds that can have an adverse effect on the quality of the oil. Uses of SN 650 Base oil Group I according to the ...

We are trading in - Lithium It is an undisputed fact that climate change and the danger posed by carbon emissions to the environment is the most pressing problem faced by our planet. People and governments have understood that there is little time left to address and reverse this phenomenon. That is why we have seen more legislation restricting carbon emissions, and ...

We are trading in - Base Oil SN 3500 Base oil SN350, is defined as a light grade base oil in the middle of the specifications of Grade I base oils. They are mainly used in lubricant and lubricant additives production. It has been solvent refined, dewaxed, and hydrogen treated to take out impurities. This oil has no impurities or compounds that can have an adverse effect on the ...

We are trading in - Base Oil SN 500 Base oil SN 500 the most widely used base oil. SN 500 is a light grade base oil at the upper end of the specifications for Grade I base oils. They are mainly used in lubricant production is a Group I base oil that has undergone solvent refining and dewaxing processes. It is the workhouse ingredient for formulators and blenders of lubricants ...

We are trading in - Virgin Oil D6 D6 is a type of residual fuel, mainly used in power plants and larger ships. The fuel requires to be preheated before it can be used. It is not possible to use it in smaller engines or vessels/vehicles where it is not possible to pre-heat it. D6 is its name in the USA. In other parts of the world it has other names. Residual means the material remaining ...

We are trading in - Light Crude Oil Light Crude oil is liquid petroleum that has low density and that flows freely at room temperature. It has low viscosity, low specific gravity and high API gravity due to the presence of a high proportion of light hydrocarbon fractions. It generally has a low wax content as well. On the other hand, heavy crude oil or extra heavy crude oil is any type of ...

We are trading in - 500 PPM Diesel Quest Petroleum Diesel 500 PPM is a premium quality, standard grade diesel for all automotive type high speed diesel engines in both stationary and mobile services. This diesel is a highly refined hydrocarbon fuel formulated with additive technology which provides improved power and performance with the potential for reduced ...
