

Volue energy Latvia

As a trailblazer in automated short-term energy trading of power and gas, we develop innovative algo-trading solutions and quantitative trading strategies for spot markets to enhance your business performance. We combine market intelligence with information technology, and years" of energy trading experience with solid capital market expertise.

Volue makes the intraday market accessible to all. In May 2021, Volue introduced Intraday Access, the 100% transparent algo-trading service that opens the intraday market to all. This is a service that allows small and medium-sized players in the power market to trade away their imbalance and capitalise on the constant market fluctuations.
